

USNA Class of '89 Board of Directors

Dan Catlin Nominee Statement

Classmates, as one who is deeply grateful for my experiences and the friendships gained at USNA, my primary goal as a potential class board member would be to strengthen unity and connections among our classmates. I'm interested in facilitating ways to connect people not only in big groups and at reunions, but also by company, sport, ECA, geography, interests, and more so that we can have even more opportunities to get together in person, re-connect, and help each other through our professional networks. I have served for twenty years on the boards of four other non-profits, and received a course certificate in Philanthropy from IU-Lilly Foundation. If given the honor to serve our class, I would seek to listen well, to ensure that I faithfully represent our class members, and to work hard so that all of us can grow our legacy together.

Thank you!

Dan
